This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

6. Caring For Your New Furniture |

- Use mild soap and warm water to clean the frames. Rinse with clean water and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove footcaps and tilt frames, if necessary, to remove all water. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Such damage is not covered under warranty. Any rust spots should be lightly sanded and treated with rust inhibitor and followed with an application of touch-up paint. Small nicks and scratches can be covered with an application of touch-up paint. Use commercially available glass cleaners, do not use abrasive materials, cleansers or bleach products.
